To Whom It May Concern,

The Lifebridge for Animals Humane Education Program has made a world of difference in my classroom. I teach second grade at Heritage Elementary and the majority of students own pets. Most students know how to care for their pets by feeding them, watering them and taking them out for exercise. But this program allows each student to learn responsibility for their pets in others ways such as compassion, ownership and spaying and neutering. Mrs. Bottom has combined her lessons with Shelby County curriculum to enhance each class that she teaches. She is helping me to create to you responsible citizens in our future. My students look forward to each visit and lesson and I would recommend this program to other classrooms across the district.

Sincerely,

A handwritten signature in cursive script that reads "Mary F. Roach". The signature is written in black ink and is positioned to the right of the word "Sincerely,".

Mary F. Roach
